WELCOME TO THE FAMILY OF KURT & RAF PLATTEEUW...

*The dominating and revolutionary
pigeon players of today*

"Dominating" (from the Latin "dominus") is having power and influence, commanding, being "master" or "lord". This word shows the idea not just of leadership, but of absolute authority!

"Revolution" (from the Latin *revolutio*, "a turnaround") is a fundamental change in power or organizational structures that takes place over a relatively short period of time. Revolutions have occurred throughout human history with different methods, duration, and motivation!

Pascal Ariën:

"Quality is never an accident. It is always the result of high intention, sincere effort, intelligent direction and skillful execution. It represents the wise choice of many alternatives". This is the way I would describe Kurt. 5 years ago my friendship with Kurt started and I advised him to start looking for a better location to be able to win national ace pigeons. He resisted and believed in quality of pigeons and quality in all aspects,... it seems he was right... the best location is where the best pigeons are..."

Like a fairytale...

"For Kurt, a man who always believes in what he does, discovering the Platteeuw Cannibal lines was a fairytale. He believed that good pigeons can fly everything, and he was right. His search for the best short distance pigeons to introduce with his own lines has given him huge success. He didn't head for the "famous" names ... he went to a small loft in Belgium, Rony Calus. Through masterful selection of pigeons he describes as "touching gold", Kurt has created an extraordinary family, and one which is sure to create success for years to come."

"My number one favourite of all time. One in a million. Every top player who ever handled this pigeon agrees – such a special bird - an absolute unique champion – the most beautiful, muscled, nice character - qualities you cannot find together in any other bird. I am 100% certain that he would still be the champ of the loft in 2020 – no pigeon came home with such an attitude - like a hawk, full of energy. I need a full book to explain all of his exceptional talents. I am grateful for the chance to play with him, I will miss him, and pray for another "New General" in my career. An iconic breeder for the future – I never had a better potential than this."

Special message to the buyers:

We wish you success with the Platteeuw lines, and hope they bring you as much pleasure as I have had from these incredible pigeons.

Sometimes you have to sell your colony worldwide to become world famous. We are absolutely sure that these pigeons are going to give success all over the world for years to come. They are 100% nature birds who, with the combination of two bloodlines, gave us the biggest successes you can win."
